Social influence

Answer **all** questions in this section.

Outline **two** explanations of resistance to social influence.

[4 marks]

This image shows a single sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page. There are approximately 20 lines visible. The paper has a slight shadow on the right side, suggesting it's resting on a surface.

Extra space

In 1987, a survey of 1000 young people found that 540 said they smoked cigarettes, whilst 460 said they did not. In 2017, a similar survey of another 1000 young people found that 125 said they smoked cigarettes, whilst 875 said they did not.

0	2
---	---

Calculate the ratio of smokers to non-smokers in 2017. Give your answer in simplest form.

Show your workings.

[2 marks]

0	3
---	---

Which statistical test should be used to calculate whether there is a significant difference in reported smoking behaviour between the two surveys? Give **three** reasons for your answer.

[6 marks]

Referring to the description above, outline **three** definitions of abnormality.

Extra space

[illegible]

One explanation for phobias, including agoraphobia, is the two-process model.

1	4
---	---

Outline **one** limitation of the two-process model.

[2 marks]

A researcher wanted to investigate agoraphobia by studying Patient X. The researcher designed a questionnaire to find out about Patient X's experiences. However, a colleague suggested that the researcher might do better to conduct a case study.

1	5
---	---

Explain **one or more** reasons why it might be better to conduct a case study than a questionnaire.
